

HCH50 Flush Cut Diamond Chain Saw

Features/Benefits

- Unique bar mount design allows you to flush cut to the wall, floor or ceiling
- Cuts 1.5" deeper than the competition
- Runs much quieter than gas powered saws
- Requires our own bar and chain - available in sizes 12", 16", 20" and 24"
- Minimum hydraulic supply: 10 gpm, maximum: 12 gpm

DIAMOND CHAIN SAW ACCESSORIES

Description	Part #	Cat #
Chain Repair Kit - includes segment, 2 drive links and 2 connecting links for concrete chain saw - more designed to repair an old segment	6048617	27193
Service kit - includes spinner, breaker, chain repair kit	6048615	27191
Anvil for chain breaker	6048742	47103
Connect link kit with both male and female links - 5 per kit	6048714	57420
Bar nose replacement kit	6048618	27194

Many chains to choose from:

- Abrasive: soft, abrasive materials
- Concrete: general purpose, hard materials
- Double Bumper: general purpose with segment protection - steel 'ramps' on the chain links that protect the segment from getting knocked off
- Premium: general purpose, long life
- Supreme: general purpose, longer life

24" Cutting Depth with
a 24" bar and chain!

Great finishing tool when
cutting openings that
diamond blades can't get
the depth needed. Doesn't
'overcut' like round blades
when cutting corners.
