

Husqvarna K 40

Powerful and reliable air-powered industrial cutter, perfect for use indoors or outdoors with access to compressed air. Featuring a long, slim body, with good weight distribution and fine balance laterally and between the handles. It is a convenient alternative for working outdoors where the air change rate is low, such as in pipeline trenches, in deep foundation sites and on marine docks. Indoors and in dust-sensitive areas, it produces no emissions from oil or exhaust.

PERFECT FOR USE INDOOR AND AT LOW AIR CHANGE RATE PLACES

An air-powered Husqvarna cutter is a natural alternative for working indoors, but it is just as viable outdoors in places where the air-change rate is low, such as in pipeline trenches, in deep foundation sites and on marine docks.

ERGONOMIC AND EASY CUTTING

Efficient cutting with less strain on your body, thanks to its low weight, ergonomic handle and low vibrations.

Features Husqvarna K 40

■ Blade retarder

■ An oil mist lubricates the motor.

TECHNICAL SPECIFICATION	
Engine	Air
Air flow	min: 99 cfm max: 124 cfm
Air Pressure	7 kp/cm ²
Power output	4.3 hp
Blade diameter	14 inch
Max cutting depth	5 inch
Arbor Size	1 inch
Weight (excl. cutting equipment)	21.8 lbs
Vibrations front handle	9.5 m/s ²
Vibrations rear handle	5.2 m/s ²
Sound power level, guaranteed (LWA)	107 dB(A)
Sound pressure level at operators ear	92 dB(A)
